**FLORIDA
THEATRE
ANNUAL
REPORT**

About the Florida Theatre

The Florida Theatre Performing Arts Center, Inc. is the nonprofit corporation that has managed, programmed and preserved the historic Florida Theatre in downtown Jacksonville, Florida since 1987, in a public/private partnership with the City of Jacksonville, which owns the building. The 1,865-seat historic theatre first opened in 1927 and is listed on the National Register of Historic Places. The venue promotes its own events, hosting over 200 individual performances this year. Annual attendance is consistently ranked by the concert industry magazine Pollstar as one of the Top 5 theatres in the nation under 2,000 seats. The Florida Theatre has been seen and heard nationally on Showtime (Larry Wilmore, 2012); Sirius Satellite Radio (Gregg Allman, New Year's Eve 2013); AXS TV Network (Lynyrd Skynyrd, 2015); National Public Radio (Michael Feldman's Whad'ya Know?, 2016); Netflix (Katt Williams, 2017); and on a worldwide Valentine's Day live stream by Air Supply (2021).

Letter to Our Supporters

Hello Florida Theatre Supporters,

It is our pleasure to report to you about the results of the Florida Theatre's most recently completed fiscal year, which ended on September 30, 2024.

The historic Florida Theatre is owned by the City of Jacksonville and has been managed and programmed by The Florida Theatre Performing Arts Center, Inc., a nonprofit corporation, since 1987. This is important for three reasons. One, the theatre is locally managed. Two, when we have a successful year, by law the money stays here, to be reinvested in the building and more programming. Three, we believe in transparency, and reporting to our supporters how we used their money.

This report is full of interesting facts and figures, but we are especially proud of these accomplishments this year:

- We staged memorably diverse performances from "A" (Ali Siddiq) to "Z" (ZZ Top) that attracted record attendance.
- It was the Florida Theatre's busiest year since 2007, with 209 performances taking the Florida Theatre stage. That also qualified as the fourth busiest year ever.
- Over 200,000 were served, the third most ever in a single year, and the most in a single year since 1997.
- The latest phase of the ongoing renovation of the Florida Theatre concluded with a ribbon cutting by Mayor Deegan on October 27, 2023.

The renovation and improvement of the Florida Theatre is ongoing. \$17.2 million of work has been completed in the last 5 years, and \$15 million of work remains, including an expansion of the first floor entry lobby, renovation

of the existing stage right dressing rooms, construction of a new green room and new dressing rooms on stage left, construction of a new artist hospitality suite on the third floor of the office building, renovation of the fourth floor administrative offices, demolition of an abandoned backstage chimney, and restoration of the marquee.

Whether you came to see Don's favorite show (Lords of 52nd Street) or Numa's favorite show (The Flaming Lips) this year, or something completely different, we value your support as a ticket buyer, and maybe even as a donor.

This building is literally a national treasure, and we thank you for your continuing support of it as a ticket buyer and maybe as a donor too. With your continued support, we will keep up the record pace of bookings, and we will keep improving the building to make the artist and audience experience as good as any venue anywhere.

The Centennial Campaign was founded in 2018 to improve the historic Florida Theatre and its physical assets in time for the Florida Theatre's 100th anniversary in 2027. To date, the campaign has funded \$17.1 million of investments in the Florida Theatre that increase the organization's ability to generate revenue; improve the customer experience; and reduce daily operating expenses through capital improvements. The campaign has already funded new and historically appropriate theatre seats; improved wheelchair access; a new concert sound system; a new theatrical lighting system; construction of the Remedy Lounge; a new heating, air conditioning and ventilation plant; modernization of all the public

restrooms; and painting of the interior with fidelity to the original 1927 palette of colors. Contributions to the campaign have been matched by the City of Jacksonville's Capital Improvement Program. These individuals and organizations, many of whom already make an annual membership gift, have made a significant contribution towards this campaign:
